APPROVED FOR RELEASE

To: Headquarters (SD).

From: Stockholm (7404). 15th February, 1945.

CREEP MATERIAL FOR 7466

Your telegram 228 of 10th February.

I am attaching a copy of 7408's Memo No. 449 of 13th February on the subject of the potentialities of the Gothenburg route for direct communication with Fyn.

2. You will note that 7408 does not hold out any prospects of a steady infiltration. The Camel route could probably handle 100 bags a month and not 75, as reported in my telegram 192 of 5th February. For the moment, therefore, we must regard the Camel route as the only regular route to 7466, but its capacity of 100 bags will have to cover both Zealand and Fyn.

3. We should be glad to have your comments on 7408's suggestion that he should hold a small stock of general stores for 7466 and creep them in as and when the opportunity presents itself.
